

## About us

We are conveniently located in West Yorkshire being only a few miles from each of the M1, M62 and A1 major routes (see our map on the contacts page) and consequently, because we are easy and quick to get to, our clients are drawn from quite a wide geography.

Although we are close to major routes, our kennels are located in a rural setting where we have plenty of uncluttered space to exercise your pets and ensure that they enjoy their stay.

All our facilities have been specifically designed to maximise the care and attention that we give to your pets ranging from the central heating facilities, to the provision of individual menus and the facility to administer medications that you require for your pet
