

Rescue Kennel

Because we have cared so much about the Golden Retriever breed and had so much pleasure in owning and breeding them we have established a rescue scheme.

This is just our way of putting something back in return for the enjoyment that they continue to give us.

The way it works is that any Golden Retrievers who need a new home whether through force of domestic circumstances, abandonment or other difficulties can initially find a new home with us.

From our extensive network of contacts we can then carefully select a new owner who will give the dog a new start in a caring environment.

We have operated this scheme over a number of years and it always provides us with a real sense of satisfaction when we see a magnificent dog resettled into a new home.

For further information on the rescue scheme, you can also contact Lynn Anderson on 01757 - 210881
